MODERNE IDEER

KATHERINE RICHARDSON

Hvordan skaber vi bæredygtig udvikling for alle?

INFORMATION FORLAG

SUSTAINABLE REPORT 2019

Verdens bæredygtigheds målsætninger udgør en vision for hvordan ressourcerne skal fordeles.

**Få målsætninger ventes
at blive indfriet, og for
flere går udvikling i den
forkerte retning!**

KØBENHAVNS UNIVERSITET

Business-as-usual approaches

GOAL	WITHIN 5%	5-10%	>10%	NEGATIVE LONG-TERM TREND
Goal 1		1.1. Eradicating extreme poverty	1.3. Social protection for all	
Goal 2		2.1. Ending hunger (undernourishment)	2.2. Ending malnutrition (stunting) 2.5. Maintaining genetic diversity 2.a. Investment in agriculture*	2.2. Ending malnutrition (overweight)
Goal 3	3.2. Under 5 mortality 3.2. Neonatal mortality		3.1. Maternal mortality 3.4. Premature deaths from non-communicable diseases	
Goal 4	4.1 Enrolment in primary education	4.6 Literacy among youth and adults	4.2. Early childhood development 4.1 Enrolment in secondary education 4.3 Enrolment in tertiary education	
Goal 5			5.5. Women political participation	
Goal 6		6.2. Access to safe sanitation (open defecation practices)	6.1. Access to safely managed drinking water 6.2. Access to safely managed sanitation services	
Goal 7		7.1. Access to electricity	7.2. Share of renewable energy* 7.3. Energy intensity	
Goal 8			8.7. Use of child labour	
Goal 9		9.5. Enhancing scientific research (R&D expenditure)	9.5. Enhancing scientific research (number of researchers)	
Goal 10			10.c. Remittance costs	Inequality in income**
Goal 11			11.1. Urban population living in slums*	
Goal 12				12.2. Absolute material footprint, and DMC*
Goal 13				Global GHG emissions relative to Paris targets**
Goal 14				14.1. Continued deterioration of coastal waters* 14.4. Overfishing*
Goal 15				15.5. Biodiversity loss* 15.7. Wildlife poaching and trafficking
Goal 16			16.9 universal birth registration *	

* target not specified ** based on most recently available data

Goals improving human wellbeing

Linking goal

Bæredygtighedsudfordringer:

Globalt

- Adgang til sundhedstjenester
- Prisen

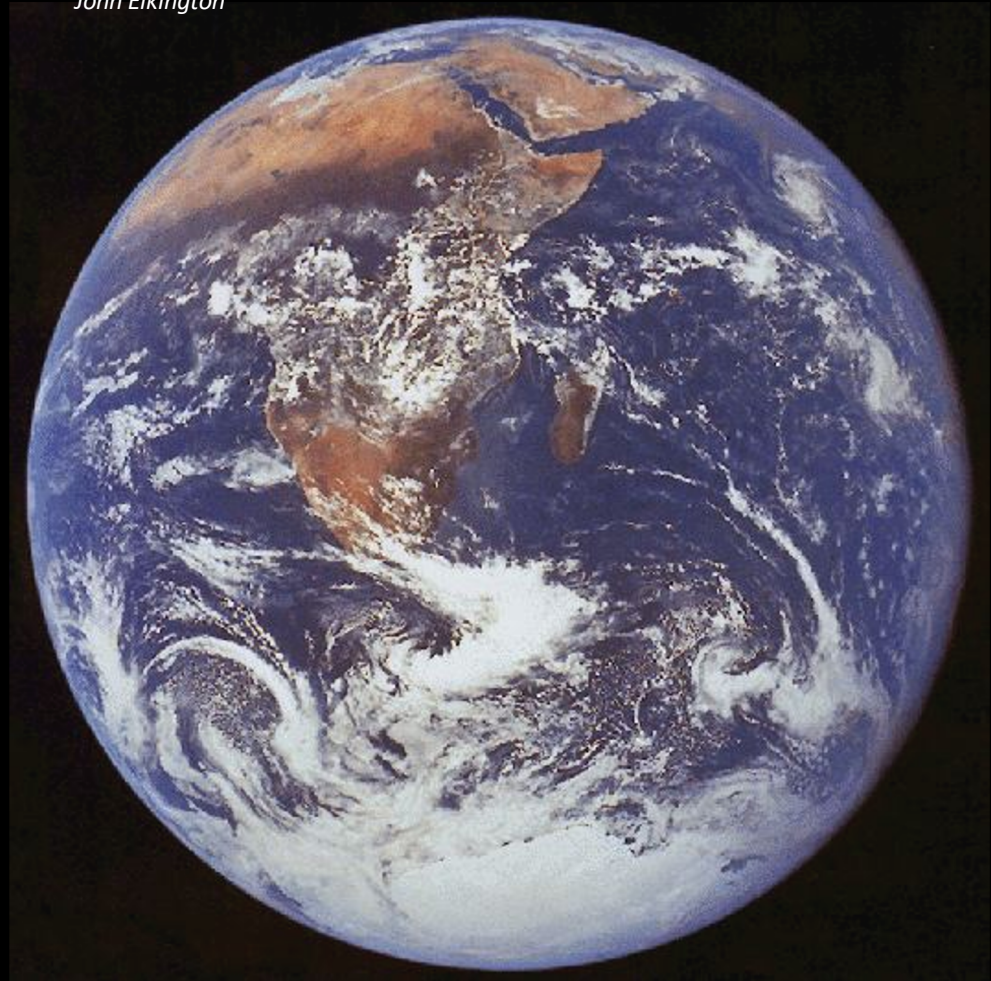

Danmark

- 6 % af CO₂ udslip
- (MEGET) stort plast forbrug
- Udslip af medicinrester

“Indkøbsordre fra fremtiden”

John Elkington

Alle, herunder sundhedssektor, har et ansvar for at levere på den ordre!
